

### Schița de racordare a planșelor

|         |   |                    |
|---------|---|--------------------|
|         | — | Limită sector      |
|         | — | Limită UAT         |
|         | — | Limită intravilan  |
|         | — | Limită imobil      |
|         | — | Limită construcții |
|         | — | Limită tarla       |
|         | ⑩ | Număr sector       |
| 8024    |   | Număr imobil       |
| 8024-C1 |   | Număr construcții  |
| 12      |   | Număr tarla        |
| T126    |   | Toponimie          |

The map shows the study area in Romania, with the research site marked by a yellow circle. The site is located in the central part of the map, surrounded by several towns: Silistea Crucii to the north, Giurgita to the east, Afumati to the west, Barca to the south, and Goicea to the southwest. The map includes a scale bar (0 to 200 km) and a north arrow.
